

1300AT

Forage Harvester

At JF, we take your forage seriously! What about you?

Discover the reasons why the JF 1300AT Forage Harvester stands as the preferred solution for farmers dealing with sugar cane, tropical grasses, and higher-powered tractors.

FEATURES

- ✓ Wider row-independent header with front drums, gathering platform, and aligners with an exclusive design for constant harvesting flow and lower stress for transmission. In maize & sorghum it harvests 3 rows at a time with row spacing of 45 cm; and 2 rows at a time with row spacing of 90 cm.
- ✓ Unmatched versatility: designed for harvesting sugar cane, tropical forage such as napier and elephant grass, as well as winter forage like oats and barley;
- ✓ Cutting blade with Tungsten coating for better accuracy and longer-lasting use during harvesting;
- ✓ Extra-sized gathering platform with 4 drums and spring-loaded drum for a more precise chopping, as well as central lubrication system for quicker maintenance;
- ✓ 16 extra-sized "C" technology rotor blades for higher processing power and chopping precision with built-in sharpener;
- ✓ 12 chop sizes available with easy shifting, perfect for working in various forage, harvesting, and dry matter conditions;
- ✓ Front drums with interchangeable fingers and adjustable speed for improved flow and stability of collected forage.

With JF you take complete control over the time and manner your forage is harvested!

Redesigned front drums structure and removable fingers.

Innovative transmission free of belts and changes

Central lubrication

KERNEL PROCESSOR

+ PRO Kernel Processor: +PRO processes grains for higher energy in the feed and less grains in the dung. Working together with "C" technology rotor blades, this system delivers the correct fiber sizes for a healthy rumination and better animal performance.

TECHNICAL SPECS

Capacity	up to 48 ton/h ²	Chop sizes	12 (from 3 up to 21mm)
Working width	1,3m ¹	Number of blades	16
Required power at PTO	from 90 up to 130 hp	Approximate Weight	1895kg
Required revolution at PTO	540 RPM	Linkage type	cat II
Drive	Tractor PTO	Transmission system	gearbox / cardan

¹Productivity might vary and depends on the following factors: cut size; productivity of forage per hectare; tractor power; logistic capacity (wagons) for forage transportation. Before acquiring the equipment, please talk to your dealer about the size of your tractor tire.
