

# JF 90 MAXXIUM

PRECISION FORAGE CHOPPER

**MORE CHOP SIZES, MORE ROBUST, AND FASTER SHARPENING!**

Discover why the **JF 90 MAXXIUM** Precision Chopper is ideal for finishing your silage production faster and, with the most advanced processing quality in its category.

## FEATURES

 **6 "C" blades** — precise chopping and improved processing

 **Built-in sharpener** for continuous precise chopping

 **4 drums** — precise chopping and better silage

 **4 chop sizes** — total control in any condition

 **Ideal for contractors and uneven fields**

 **Central lubrication** for faster maintenance

**Folding feeding box:**  
easier maintenance

**4 drums:**  
more precise chopping

**C-Tech blade:**  
better chopping + processing

**BUILT-IN SHARPENER**  
Sharp performance. Lower costs.  
Zero downtime.

## TECHNICAL SPECS

 Capacity	up to 18,5 ton/h <sup>1</sup>	 Chopping size	4 (from 5 up to 18mm)
 Required power at PTO	from 50 up to 60 hp	 Number of blades	6
 Recommended rotation at PTO	540 RPM	 Approx. weight	547 kg
 Drive	tractor PTO	 Coupling	cat II
 Transmission System	gearbox/ cardan and belt	 Discharge chute	manual - 360°

<sup>1</sup>Productivity may vary and depends on the following factors: chop size; forage yield per hectare; tractor power; logistical capacity (wagons) for forage transportation, among others.
